ONLINE PROFESSIONAL DEVELOPMENT COURSE

Organisational Foresight

Government agencies don't fail suddenly. They fail through accumulated tolerance for warning signs.

Royal commissions into aged care, disability services and child protection have consistently identified the same pattern: signals present in the system, normalised over time, invisible to leaders detached from the operational reality. Organisational Foresight gives public sector leaders the tools to develop genuine foresight before it is too late.

LEGAL CONTEXT

Inquiries into major public sector failures have repeatedly found that information about developing problems was available but not synthesised or acted upon at the leadership level. Officers and senior executives carry personal obligations under WHS law and governance frameworks that require proactive oversight.

For public sector executives, board members and governance professionals.
